Dear Senator Lautenberg,

I am a volunteer for the Raoul Wallenberg Committee of the U.S. The enclosed letter pretty much explains the purpose of this letter.

I might add that if you could use your clout and personally reach the President it would be terrific. This November's summit may well be Mr. Wallenberg's best chance at freedom. If his name could be placed on Mr. Reagan's agenda before it is formulated is most important. From "Pittsburg" it seems once the agenda is formulated it will not be changed.

Mr. Wallenberg just turned 73 and time is running out for him. Please use your good offices to help him. Thank you.

Sincerely,

B6
